

OSAMA AL-HARBI

IT & DIGITAL TRANSFORMATION SPECIALIST | NETWORKING

Email: osamafcv214@gmail.com , Phone: [+966537820694](tel:+966537820694), Location: Saudi Arabia, Madinah,

Linked in: <https://www.linkedin.com/in/osama-alharbi-it/>

PROFESSIONAL SUMMARY

Information Technology professional with hands-on experience in Digital Transformation, Business Process Analysis, ITSM, process improvement, and technical documentation. Experienced in analyzing workflows, supporting process automation, developing and reviewing organizational documentation, preparing analytical reports, and coordinating cross-functional initiatives. Complementing this experience with practical networking training in Cisco networking, VLANs, Inter-VLAN Routing, Router-on-a-Stick, PRTG, SNMP, WMI, and network troubleshooting.

PROFESSIONAL EXPERIENCE

Digital Transformation Specialist | Islamic University of Madinah, Madinah

Jan 2026 – Present

- Developed 20+ documents and reviewed/updated 40+ documents supporting digital transformation, innovation, services, software, and operational initiatives across multiple departments.
- Prepared 30 analytical, administrative, and documentation reports supporting operational follow-up, information management, and decision-making.
- Analyzed workflows and work steps for 2 systems, identifying opportunities for process improvement and automation.
- Identified and analyzed 4 innovation projects and monitored/tracked the status of approximately 6 projects.
- Collaborated with approximately 4 departments to collect, validate, consolidate, and document required information.
- Supported implementation and strategic planning for innovation initiatives and documentation of beneficiary services, software, and website efficiency.
- Used Microsoft 365, Word, and Excel for documentation, reporting, data organization, and operational analysis.

PRACTICAL NETWORKING TRAINING

Networking Trainee | Networks Department, Deanship of Information Technology – Islamic University of Madinah

- Configured and validated 4 VLANs, IP addressing, /26 subnet segmentation, 802.1Q trunking, and Inter-VLAN Routing using Router-on-a-Stick.
- Performed Cisco configuration verification, connectivity testing, and troubleshooting using Ping and show commands.
- Configured and used PRTG Network Monitor with Ping, WMI, and SNMP to monitor CPU, memory, disk, response time, packet loss, and system health using 11 sensors.
- Applied ITSM concepts using ManageEngine ServiceDesk Plus, including incident management, ticket lifecycle, prioritization, and SLA concepts.

EDUCATION

Bachelor of Information Technology | Islamic University of Madinah | GPA: 3.78/5.00

Graduated Jan 2026

CERTIFICATIONS

AWS Certified Cloud Practitioner (SDA) | IBM IT Security Fundamentals | ISC2 Security Principles | ISC2 Network & Communications Security SATR Cybersecurity Awareness

PROJECTS

Student Complaints Management System (Voice of Student)

- Developed an automated workflow web platform to digitize manual complaint procedures and streamline request processing.
- Designed and optimized secure SQL/MySQL database schemas to ensure data integrity and multi-level authorization.
- Built the frontend using HTML5, CSS3, and JavaScript, improving usability and streamlining the request workflow.

Personal Portfolio Website

- Designed and developed a professional portfolio website showcasing technical skills, experience, and selected projects.

TECHNICAL & PROFESSIONAL SKILLS

Hard Skills: Cisco Networking, VLAN, Inter-VLAN Routing, Router-on-a-Stick, Switching, Trunking, Subnetting, IP Addressing, OSPF, Static Routing, TCP/IP, PRTG, SNMP, WMI, Network Troubleshooting, Digital Transformation, Business Process Analysis, Workflow Analysis, Process Automation, ITSM, SQL/MySQL, Python, PHP, JavaScript, HTML5, CSS3, Microsoft 365, Word, Excel.

Soft Skills: Analytical Thinking, Problem Solving, Communication, Cross-functional Collaboration, Stakeholder Coordination, Project Coordination, Documentation, Attention to Detail, Process Improvement.

LANGUAGES

Arabic: Native | English: STEP 60
